

## Concierge Physician Programs

Thank you for participating in the Concierge Physician Program offered through my office.

You will now have direct access to me 24 hours per day, 7 days per week, as well as receiving our world class personal attention. Enclosed you will find our business card. Different than the usual business card, you will find my personal contact information on the reverse side. Our means of contact now include several modalities including personal appointments, landline, cell phone, email, regular mail, text and Skype.

Please note that in the very unlikely circumstances that my personal numbers are not answered, I have instructed my personal exchange to track me down or to connect you with my coverage physician, who is familiar with your history and care.

In the upcoming weeks we will be scheduling a complete review of your medical history and performing other evaluations needed to establish a wellness plan.

Should you require seeing a specialist, or need a special evaluation, we will arrange timely referrals with the specialists.

While the Concierge Physician Programs do not cover medical services, we will bill your health plan for such services performed in our office. If you have any questions at all, please do not hesitate to call.

We welcome you to this service which offers you advantages above and beyond the usual and customary health programs. Because of its nature, we are limiting the number of individuals who will participate in Concierge Physician Program so that the quality of services we offer will always be top notch. We look forward to working with you in this new program.

Thank You,

A handwritten signature in black ink, appearing to read 'RSW', with a long horizontal flourish extending to the right.
